The Debate ..and The Golden Ratio

The Debate ..and The Golden Ratio

Sales % vs No Discount Baseline

Total Revenue by Discount Range

Top 15 Best-Selling Categories

Are there any seasonal patterns in sales?

November - January dominates our revenue calendar.

Total Daily Revenue is stable until it isn't **Black Friday !**

One day changes everything: ➡ Black Friday

Seasonal Impact on Daily Revenue

Black Friday isn't a festival—it's a revenue earthquake

We should expect
high discounts on
Black Friday and
Christmas.
Right?

The Data Says: Discounts are not the only Reasons

Discounts are ordinary but the demand is extraordinary

Our Recommendations
